BETTY SHEFFIELD SUPREME

Probably the most sought after camellia japonica in America today. Betty Sheffield Supreme, a sport of Betty Sheffield, most definitely has a new color break for camellia flowers. It is pure white with a narrow margin of very deep pink to red around the edge of each petal. These grafts are on four year understocks. Supply very limited.

PECANS FOR 75 YEARS

Seventy-five years ago Wight Nurseries started out as a pecan tree nursery. We think our trees are the finest available. The soil here is a sandy loam with clay at a depth of about 15 inches. Pecan trees grown in this soil have a shorter tap root and generally more lateral roots than trees grown in deeper sands. All trees are freshly dug by skilled diggers when your shipping instructions are received.

Several years back we increased our pecan tree production so that on our 75th Anniversary year we could offer at special savings to our customers the one product that we have produced since 1887.
